EMPEROR'S TOMB

Marcus says I need a calling card for when I'm out in the field and not "immersed in academia." I've scribbled some lettering to mull over, and attached it to the cover. I think it suits me.

My colleagues at the College think I focus too much on my duties outside the classroom. What's the use of research if it has no practical application? Still, I need to make sure I have this semester's curriculum outlined before I get too involved in another assignment for the museum.

If it weren't for the steady pay I'd take a job less strenuous than teaching! The artifacts from the class field trip only date back a few hundred years, but I know Marcus will still be interested.

ITEM: Origin unknown but created by an extremely advanced civilization. For ritual ornamentation?

MATERIAL: Man-made high-impact composite.

DESCRIPTION:

I could get this artifact to function only by observing the rules I've attached to this form. This "disc" seems to be a conveyance of knowledge.

Its function, however, is difficult to determine.

I am reminded of the prayer pillars used by Tibetan monks, so perhaps by spinning the artifact we can release its secrets.

GETTING STARTED

INSTALLING THE GAME:

There are two ways to install Indiana Jones™ and the Emperor's Tomb™ on your computer. First, insert the game CD into your CD-ROM drive. If you have Autorun enabled, the game's Launcher will appear. Click the Install button. If Autorun is not enabled, open My Computer from your Windows desktop and double-click on the CD-ROM drive showing the Indiana Jones and the Emperor's Tomb icon. Double-click on the Setup Program icon to start installation.

Once the setup program has started, on-screen instructions will guide you through the rest of the installation procedure. If you experience problems with the installation, click the Help tab on the game's Launcher menu. NOTE: We recommend turning off background applications and virus scanners during installation.

STARTING THE GAME:

The game CD must be inserted in the CD-ROM drive to play. If you installed a desktop icon for the game, locate and double-click it to launch the game. Alternatively, open the Start menu from your Windows desktop, select Programs, then LucasArts, then the Indiana Jones and the Emperor's Tomb folder. Click on the Play Indiana Jones and the Emperor's Tomb menu selection.

Once you load the game, the Launcher screen appears. From this menu you can start the game or read the Help files and troubleshoot your system. View the game's Readme file for last-minute information not covered in this manual.

 Misplaced my Webley again. Maybe I left it in my desk. That's what I get for not using my holster. Read in the paper about Abner's recent discoveries in the north Orient. Seems like his obsession with religious antiquities is paying off. Which reminds me, Marcus wanted me to check out some of the recent finds of the early Manchu Dynasty. If I can shake off some of this academic responsibility I should head off to Shanghai. Made a few promises I gotta live up to. And a few bets too.

Jan 12
 I've been spending more time than I'd like at the library. There must be a connection in Topkapi's treasury that links the Sultan to the grave robberies in North Africa. Certainly the feizance inlay on the dagger is from the Old Kingdom. I've had Marcus check related pieces in storage but he's found nothing. I had hoped to discover something during the Omega Expedition that would shed some light... I guess I'll be visiting Istanbul on my next ~~sabbatical~~ sabbatical. So much for Hawaii!

I've contacted the National Archeology College Association regarding Barnett's contributing budget for field work. Recent funding from the WPA has increased my overall expense margin, but the Board seems to think I'm more of a grave robber than a historian. Apparently, the Works Progress Administration specifies ~~on~~ rigid guidelines for "conservation archeology." At least the Museum knows I'm only interested in preserving and protecting antiquities from profit hunters.

Good news! Marcus wants me to help locate an artifact in Ceylon, and the campus Board of Directors is more than happy to send me on a sabbatical. Maybe I shouldn't have used Marcus' government connections to have FDR straighten out my budget dispute! I've cabled my friend at the Consulate for the inside scoop. I'll head out in search of the lost city of Anurapura and the Savarati Idol as soon as I hear back from him.

Albrecht Von Beck (?) is after the idol as well. This tip comes from a most unlikely source: Bellog! Though Bellog and I fiercely compete for the same artifacts, it appears the rivalry between Von Beck and Bellog is even greater!

RUMORS OF LOST TOMB CAUSE SPECULATION

The First Emperor of China Is the Last To Be Found

Emperor Ch'in Shih Huang-ti unified the Empire of China by centralizing ruling power into an autocracy to govern the feudal communities in 246 B.C. Though Emperor Ch'in Shih Huang-ti was technically the ninth emperor to rule, he was the first to unify the seven states of China through agricultural and military reform. His name, "Shih" means "first," and "Huang" was the title of the previous three emperors, and Emperor Ch'in Shih Huang-ti has been considered the "First Emperor" since his self-proclamation. He created townships, built roads, standardized script writing and coinage, and unified economic and cultural exchange across the continent.

When he ascended the throne, Emperor Ch'in Shih Huang-ti began the construction of his tomb, in the tradition of all-powerful leaders of antiquity, and died in 210 B.C. while campaigning away from the Capital.

The tomb of the Emperor is widely known, and has been revered by locals for centuries; however the actual crypt or mausoleum of the Emperor himself has never been discovered, nor has a full-scale excavation been commissioned.

We interviewed Dr. Abner Ravenwood, an expert on Antiquities of the Orient, via cablegram over several days. Currently he is in Shanghai working on personal research.

ITALIANS WILL START WAR BY YEAR'S END

Expect Campaign to Consume Four Years

Paris, Feb. 16—Great Britain has informed Italy that an invasion of Ethiopia will result in the collapse of the League of Nations and a resumption of the dangerous pre-war "balance of power" in Europe, authoritative sources said today.

London, Feb. 1.—Italy intends to attack Ethiopia on two fronts during the later part of the year and will be prepared for a four-year campaign, according to expert military opinion.

Information in the hands of the British military intelligence is that Italian military leaders themselves are preparing to

LOST TOMB

(continued from page 1)

Dr. Ravenwood, how do you explain the absence of a sarcophagus? "There can be several reasons. Grave robbers. Animals. Or perhaps the Emperor is simply buried in some nondisclosed location to perplex his enemies."

What about treasure? Surely he was a man of great wealth. Since none has been found in his tomb, could treasure be buried with him in this secret location? "Unlike the ancient Egyptians, the wealth of the Emperors of China generally remained in the palace or treasury for his successor. I doubt that anything of great monetary value would be found. Though artifacts invaluable to the scientific community may yet be uncovered. Palace records indicate that the Emperor commissioned hundreds of terra cotta statues from local artisans. An army to protect the dead are true, evidence of such a large assemblage would have turned up. A small statuette in the Chicago Museum is believed to be the model for its life-sized counterpart, but I don't believe the commission was ever completed."

What about treasure of religious value? "You have been talking to my colleagues, haven't you? Yes, I have been seeking out artifacts that hold great religious significance. I find the study of ancient beliefs to be fascinating. But in the case of the Emperor, he was known as a reformer and a tyrant, but not a man particularly respectful to the gods."

Do you think the Emperor will ever be found? "It is unlikely that he can be found. Unless some record exists as to where he may have been buried, I fear the First Emperor of China will never rest, which is as it should be."

Dr. Ravenwood's archaeological expedition is now in progress. He is currently in Shanghai, and is expected to return to London in the near future.

BASIC MOVES

01/14/35

Per your Doctor's recommendation, follow this routine daily.

All control descriptions use the default configuration. You can change the configuration at the Options Menu (see page 7).

NAVIGATE: Use the W, S, A, and D keys to move in any direction.

JUMP: Press the SPACEBAR while standing, walking, or running. Note: Only your whip can be used while jumping.

CLIMB: You can climb low obstacles by pressing the W key. Higher obstacles will require a jump. Press the W key up while hanging to pull yourself up, or press the SPACEBAR to dismount from a hanging position. To climb certain vertical obstacles, look for ladders, vines, stone blocks or scaffolding. Approach the wall and press the W and S keys to climb up and down. Pressing the SPACEBAR before reaching the top will cause you to let go and drop.

ACTION: The E key can perform a variety of operations depending on the situation. These can include activating the appropriate inventory item, picking up an item, opening a door, lighting a torch and more.

COMBAT: Pressing the left or right mouse buttons will make you punch/jab/kick, or utilize your weapon if one is equipped (see Combat Moves on page 20).

DRAW/HOLSTER WEAPON/LAST ITEM USED: Pressing the T key will draw or holster the last selected weapon (see Combat Moves on page 20) or item. Pressing this key will also access the last selected Inventory Item, or place an item in your satchel (see page 27).

RELOAD: Pressing the R key will reload any equipped gun with ammo from your inventory.

MOVE CAMERA: Press the C key to center the camera, and the mouse to rotate the camera.

LOOK: The mouse allows you to adjust the camera view at any time. Press the C key to center the camera, and hold down the C key to switch to a first-person view, which is very useful for aiming. While in first-person view, you can also see your Status (see page 25).

SPECIAL MOVES

The Monarch Hotel, "Where the World Comes For Holiday," is proud to offer our full-service spa as part of your stay. In addition to tennis, golf and massage, we provide a wide range of invigorating activities:

SHIMMY: While hanging from a precipice, pressing the **A** or **D** keys will make you shimmy along the edge. Pressing the **W** key will pull you back up (if possible). You can dismount by pressing the **SPACEBAR**, but be careful you don't fall!

WALL HUG: Walk forward by pressing the **W** key, and then press the **E** key to hug your back to the wall. This is useful for traversing narrow ledges. To stealthily see around corners without revealing yourself to other enemies, press the **Z** key to peek to your left and press the **X** key to peek to the right. Press the **E** key again to disengage from the wall. **NOTE:** If you are carrying your gun while hugging a wall, press the **Z** or **X** key to lean around a corner, and then press the left mouse button to fire your weapon.

SWIM: Press the **SPACEBAR** to swim, and the **W**, **S**, **A**, and **D** keys to control your direction. Remember, you can only hold your breath for a limited time. Watch your Air Bar and resurface, if you can, to get more air. A lack of air detracts from your Health Meter (see page 25). Don't drown! You can pull yourself out of the water by pressing the **W** key only at an area that is close to the water level.

ROLL: Pressing the **Q** key while running will perform a roll. The roll can be used to navigate through low spaces, and is useful in evading certain traps and enemy attacks.

Our full-service accommodations also include complimentary post and cablegram services, in-room telephones, nightly live music in our World-Famous Ballroom, a Smoking Room, and a Lounge Bar open twenty-four hours.

Should you require anything, simply utilize your room telephone and our ever-ready staff will immediately assist. Enjoy your stay in London.

GUEST LEISURE ACCOMMODATIONS

WHIP SWING: The whip is your most valuable tool. Not only can you crack it at an enemy (see Combat Moves on page 20), but you can also use it to swing across a chasm. You can swing from a wide variety of objects that extend from walls or ceilings. Not all whip swing anchors may look like this, but if you are able to perform a whip swing a Whip Swing Action Icon will appear in the upper-right corner of the screen (see page 24). Press and hold the left mouse button to grab the marker with your whip. If you release the left mouse button before you reach the bottom of your swing, you will fall. If you hang on too long and stop swinging, press the **W**, **S**, **A**, or **D** keys in the appropriate directions to resume your swing. Furthermore, with good timing you can also swing from one target to another by releasing the left mouse button and quickly pressing the button again to strike another target.

ROPE SWING: If you encounter a rope or chain, press the **SPACEBAR** to jump and grab on. To swing, press the **W** or **S** keys. Press the **A** and **D** keys to face the appropriate direction. To climb a rope, press the **UP** and **DOWN ARROW** keys. You can release the rope (don't fall!) by pressing the **SPACEBAR** again.

SETTING A CHARGE: If you find a Demo Charge, you can strategically place it on destructible walls or floors by pressing the **E** key and running to a safe distance before the fuse runs out. An icon of a bomb will appear in the upper-right corner of the screen if you are near an area that can be affected by a Demo Charge (see page 24).

A note on falling: If you hold down **LEFT SHIFT** key while carefully walking off a precipice, you will automatically catch the edge. This technique allows you to safely lower yourself from dangerous heights. Otherwise, you will sustain varying damage from a fall. If you fall too far, you will surely die (see Health Meter on page 25). However, you will not be hurt if you fall into water, unless from a great height.

COMBAT MOVES

KNOW YOUR ENEMY

You will fight your enemies in either Close Combat or Ranged Combat.

Close Combat is bare-knuckled, no-holds-barred fighting involving hand-to-hand moves, your whip, and improvised weapons.

Ranged Combat is useful in situations where long-range firepower is more effective than bare-fisted brawling, and involves a variety of guns from your trusty pistol to enemy machine guns.

When in doubt, whip 'em!

CLOSE COMBAT

Hand-to-hand attacks can range from punches, jabs, elbow smashes, kicks, knee smashes, head-butts, shoulder throws and more, depending on which buttons you press and your position to the enemy.

To punch, press the left and right mouse buttons (which correspond to your left and right fists). These buttons may also kick an enemy if the enemy is down in front of you. Use the W, S, A or D keys to control the direction of your attacks.

To grab an enemy, simultaneously press the left and right mouse buttons.

Study the examples shown at right.

FIG. 1

Junior, though I don't approve of violence for your methods in general, this guide from my training days in the volunteer corps may prove handy should you run into trouble again. Your father

Example punches:

Most Punch Combinations can be achieved with only three button actions. If your enemy is down, you will perform Kick Combinations as well.

LMB*-LMB-LMB (basic triple-left combination)

RMB*-RMB-RMB (basic triple-right combination)

*LMB=left mouse button / RMB=right mouse button

Example grabs:

Once you have grabbed an enemy, you can perform special grapple punches or knee attacks by pressing the left and right mouse buttons. You can also throw an enemy that has been grabbed by pressing the W, S, A or D keys. Grabbing an enemy from behind performs an especially powerful headlock grapple.

LMB+RMB (grab), then LMB-LMB (knee attack), then the W key (throw enemy forward)

Example combos:

In addition to the combinations above, alternately pressing the left and right mouse buttons will perform more advanced (and devastating) combinations. Furthermore, pressing the W, S, A or D keys while tapping out any of the button combos will result in different attacks.

COMBAT MOVES

Your Close Combat weapons include your whip and a wide selection of improvised weapons you can pick up from the environment and wield for a limited time. Close Combat weapon attacks are performed with the left and right mouse buttons.

The Whip: To use the whip effectively in combat requires skill and practice, because the whip is not a particularly fast weapon. However, its ability to drive enemies backward and its variety of special attacks makes the whip a versatile and stinging weapon. Pressing the left mouse button will perform a quick, overhead strike that will knock a weapon out of your enemy's hand. Additionally, pressing and holding the left mouse button will wrap the whip around an enemy's neck and automatically pull him toward you for a powerful punch combination. Pressing the right mouse button unleashes a circular whip-clearing move that is effective in pushing back multiple enemies. Note: If you disarm an enemy, sometimes you can pick up and use his weapon. Be careful, however, as other enemies can do the same thing and use the fallen weapon against you.

Machete: Use the machete to hack your way through vine-covered passageways, or cut some ropes.

Improvised Weapons: You can use items in your environment as improvised weapons, such as a shovel, bottle, chair or even a table leg (if the table is broken first). Some improvised weapons can be used to parry blows, while others can only be thrown at an enemy. Unlike your whip, some improvised weapons may only be used a few times before they break! To pick up an improvised weapon, press the E key. Use the right mouse button to swing the object. Some objects (like bottles) can be thrown by pressing the left mouse button. Selecting a new weapon will make you drop the improvised weapon.

Grenades: Grenades will explode several seconds after you press the left mouse button. Make sure that you are out of range of the explosion!

Throw Meter: If you pick up certain throwable objects, like grenades, press the left mouse button to make a Throw Meter appear on screen. As the Throw Meter rises and falls, release the left mouse button to throw the object at different strengths.

Blocking (Guard Mode): To block Close Combat attacks, hold down the **LEFT SHIFT** key to enter Guard Mode and face your nearest enemy. While in this position, you will be able to block attacks from both in front of you and behind you. Also, holding down the **SPACEBAR** and pressing the **W, S, A** and **D** keys will allow you to quickly execute special evasive moves: dash left/right, or dash back/forward. Pressing the right mouse button executes a forward somersault.

FIG. 8

Trap Mode: Occasionally, when confronted with dangerous traps, you will automatically enter Trap Mode. While in Trap Mode, pressing the **W, S, A** and **D** keys will execute quick evasive dashes, but you cannot change the direction you are facing.

RANGED COMBAT

Your primary Ranged Combat weapons are your pistol and whip. Unlike the whip, guns only utilize the left mouse button. Pressing the right mouse button will bash your opponent (if they are close enough) with the butt of your pistol. For weapons that fire, holding down the **C** key will initiate the Look Mode and an aiming cross hair appears (see page 15).

As you select or fire your weapon, your Ammunition Status appears in the lower right portion of the screen. The ammunition is shown in two counters. The first indicates the number of shots you can fire before reloading, and the second indicates the number of rounds remaining in your inventory. You can reload your weapon at any time by pressing the **R** key.

REQUIRED MATERIALS

This introductory course to antiquarian research covers basic field methods and the interpretation of material evidence from the excavations of historical sites; with emphasis on strata association (sequencing and seriation techniques) and the prevention of site contamination. Excavation is inherently destructive; therefore the history of excavation methodology and the ethics of disturbing sites of cultural significance will also be examined. This is a hands-on course, and requires each student to become familiar with the following in order to properly interact with the curriculum:

ACTION ICONS

The Action Icons are informative graphics that appear in the top-right corner of the screen when a special action can be performed. These Icons can provide valuable hints if you are uncertain about what to do. Note: These Icons do not appear if the game difficulty is set to Hard.

HEALTH METER: Your Health Meter ranges from green to red and reflects your current condition. Each time you receive damage (from a punch, pistol shot, fall or drowning), the Health Meter appears momentarily on screen. Watch yourself; as you become hurt, you will slump forward from exhaustion. Once your health drops below 20 percent, the Health Meter will remain on the screen. Once your Health Meter reaches zero, the game is over.

WATER METER: You need water to survive on your adventures. As you drink water, your Health Meter increases proportionately. You drink water from your canteen and refill it at the fountains found throughout the level (see Inventory on page 27).

"He shall not bind his soul with clay."—Alfred T. Tennyson (1809-1892)

INDIANA

Because the condition of the Savarati Idol was, shall we say, LESS than satisfactory, our exhibit on religious idolatry is being postponed, much to the disruption of the Museum's operating budget. I'm not giving up, however. The Museum has yet another relic it would like recovered in time for a special exhibit on the South American Chachapoyan Warriors, opening early next year. We have begun preliminary research and hope to locate the temple which we believe may contain a 2,000-year-old golden idol. Not much is known about the site; only that we are in competition with several other museums and collectors, which may add a modicum of danger to the expedition. This is YOUR area of expertise, and your chance to show the Museum that you are still our most profitable "expert of Antiquarian Acquisition."

Thanks again, Indy, and better luck next time.

INVENTORY

The inventory in your Mark VII satchel changes as you acquire new items during gameplay. Your standard kit contains your whip, pistol, and canteen. To scroll through your inventory, press the LEFT or RIGHT ARROW keys, and press the UP ARROW key to select an item, or the DOWN ARROW key to exit the Inventory screen.

✓ **WEAPONS:** Your whip, pistol, and other weapons are explained on page 22.

✓ **CANTEEN:** The canteen restores your health by refreshing you with water. The canteen holds enough water to restore your health from 0-100 percent. You can drink water at any time by selecting it from your inventory and holding down the Left Mouse button until you reach the level you desire or until your canteen is empty. The canteen can be refilled at fountains found throughout the levels. To refill your canteen, stand at a fountain and hold down the E key. It's a good idea to fill your canteen at every opportunity.

✓ **MAP:** If you should find a map, you can view it by selecting it from your inventory.

CUSTOMER SUPPORT

Before contacting customer support, please consult the technical help file. It contains the answers to some of our most frequently asked questions and may quickly and easily provide a solution to your difficulty. If after reviewing the technical help file you are still experiencing problems, please feel free to contact us through any of the online services listed. In order to assist us when dealing with your difficulty, please have the following information ready when you call or attach it to your email to support.activision.co.uk.

1. Complete product title.
2. Exact error message reported (if any) and a brief description of the problem.
3. A copy of your Direct X Diagnostic report. To access this go to Start - Run and type `cd\debug\dxdiag.txt` and press ENTER. The report will be found in your My Computer C: drive.

If you are experiencing difficulty with the multiplayer or online portion of the product, please assist us by having the following additional information ready when you call.

If you are using a modem:

1. What kind of modem is on each end (brand, model, speed, internal or external)?
2. Do you have more than one modem?
3. On which port is each configured?
4. Does Hyperterminal (or any other terminal program) work with your modem? This is an easy way to test whether or not your modem is configured correctly.
5. At what speed are you connecting?
6. Have you made sure data compression, error detection, and flow control is turned OFF? Refer to your modem's manual to do this.

If using an external modem:

1. What kind of serial card is being used?
2. Do you have a seven-wire serial cable?

If you are on a LAN:

1. Can you see other computers on the network?
2. What is your network configuration?
3. What brand of network card do you have?
4. What network software are you running? What version number?

ACTIVISION Limited 90-Day Warranty

Activision warrants to the original consumer purchaser of this computer software product that the recording medium on which the software program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, ACTIVISION agrees to replace, free of charge, any product discovered to be defective within such period upon receipt at its Factory Service Centre of the product, postage paid, with proof of date of purchase, as long as the program is still being manufactured by ACTIVISION. In the event that the program is no longer available, ACTIVISION retains the right to substitute a similar product of equal or greater value.

This warranty is limited to the recording medium containing the software program originally provided by ACTIVISION and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, misemployment, or neglect. Any applied warranties applicable to this product are limited to the 90-day period described above. EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER REPRESENTATION OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR OBLIGATE ACTIVISION IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGE RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS PRODUCT, INCLUDING DAMAGE TO PROPERTY AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURY, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION. Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS. The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "Restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

INJUNCTION. Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDEMNITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, + (310) 755-7000, Attn: Business and Legal Affairs, legal@activision.com.
